NOW IS THE TIME FOR AQUASHADE!

For best results as a pre-emergent, Aquashade must be applied **before** the growing season.

Aquashade can be applied directly to ice cover in late February to early March, (be careful and test ice before walking on it) or poured along the shoreline. Re-apply throughout season as needed based on loss of color due to dilution or dye degradation. Be sure to thoroughly read the label and apply as directed on container.

ON SALE NOW!

\$39.99

ON SALE! WOW!

HORSEMAN'S EDGE SENIOR HORSE FEED \$12.99

PICK UP ONLY.
NO OTHER DISCOUNTS APPLY.

Formulated to address the nutritional demands associated with the equine aging process. This complete pelleted feed has roughage built in to help alleviate some of the issues older horses have with chewing or digesting forage.

14% PROTEIN
4% FAT
18.5% FIBER

SOME RESTRICTIONS APPLY.
